CRAFT

Craft turns the ceramic surface into a landscape of light, colour and texture. Its design invites the creation of interiors that shift with every glance, from calm compositions to more expressive schemes. The collection's defining feature is the combination of two ceramic granules with different levels of gloss, producing deep luminosity and a delicate grain-like appearance. Linear and organic reliefs intensify the play of light and shadow, while botanical motifs introduce an artistic dimension. Innovation and sensitivity come together in a creative tool rich in nuance.

Craft convierte la superficie cerámica en un paisaje de luz, color y textura. Su diseño invita a crear ambientes que cambian con cada mirada, desde composiciones serenas hasta propuestas de mayor intensidad expresiva. El rasgo que define la colección es la combinación de dos granillas con distinto brillo, capaz de generar una luminosidad profunda y un delicado aspecto granulado. Relieves lineales y orgánicos amplifican el juego de luces y sombras, mientras los motivos vegetales introducen una dimensión artística. Innovación y sensibilidad se unen así en una herramienta creativa llena de matices.
