

MEMORIES

At Carmen we care about keeping our roots alive. And ceramics is an essential part of them. We recover four ceramic design classics that connect directly with ceramic history in an even smaller format. Small in appearance, big in emotion. Memories is a special collection where we use manufacturing techniques reintroduced from artisan systems. On the one hand, it is made up of smaller versions of the classic ceramic formats. In addition, we use a double firing system that allows us to reproduce color gradients on the surface and crackles at will in different formats.

En Carmen nos preocupamos por mantener vivas nuestras raíces. Y la cerámica es una parte esencial de ellas. Recuperamos cuatro clásicos del diseño cerámico que conectan directamente con la historia cerámica en un formato aún más reducido. Pequeño en apariencia, grande en emoción. Memories es una colección especial donde usamos técnicas de fabricación reintroducidas de los sistemas artesanos. Por un lado, está compuesta de versiones más pequeñas de los formatos clásicos cerámicos. Además, utilizamos un sistema de bicocción que nos permite reproducir degradados de color en la superficie y craquelados a voluntad en diferentes formatos.
